COTEC	Council of Occupational Therapists for the European Countries
CPD	Continuing Professional Development
ECTS	European Credit Transfer and Accumulation System
EEA	European Economic Area
EU	European Union
NA	National Association
OT	Occupational Therapy or Therapist/s
SIG	Special Interest Group
WFOT	World Federation of Occupational Therapists

Summary of the occupational therapy profession in Europe 2016

Message from the COTEC Executive

The Council of Occupational Therapists for the European Countries (COTEC) is the European organisation for occupational therapists through their national associations. The mission of COTEC is to ensure Occupational Therapy is available & accessible, visible & valued across Europe.

COTEC promotes and supports the development of occupational therapy to harmonise and improve standards of professional practice through a robust educational system, as well as advance the theory of occupational therapy throughout Europe to best address the social and health issues affecting the citizens of Europe.

COTEC was founded in 1986 – this year COTEC celebrates the 30th Anniversary with its 30 Members who represent over 130.000 occupational therapists around Europe.

The Summary of occupational therapy profession in Europe is compiled and updated annually based on information supplied by the Member associations of COTEC. The Summary includes statistical information of occupational therapy and professional associations as well as information about education and regulation of the profession. This information can be a valuable tool for promoting occupational therapy as well as providing information for policy makers in both health and social arenas at national and European level.

In October 2015 the Russian Professional Association of Ergotherapists became a member of COTEC and information regarding occupational therapy in Russia is now included in this summary for the first time.

COTEC Executive Committee is grateful for the support of its Member associations on compiling the data for the document and is pleased to publish the Summary of Occupational Therapy Profession 2016.
